Clinical Pastoral Education

Duke Regional Hospital

What is Clinical Pastoral Education?

Clinical Pastoral Education (CPE) is interfaith professional education for spiritual caregivers. It brings students and spiritual caregivers of all faiths into supervised encounters with persons in crisis.

Out of an intense involvement with persons in need and the feedback from peers and teachers, students develop a new awareness of themselves as persons and better understand the needs of those to whom they support.

Chaplaincy at Duke Regional Hospital

Chaplains at Duke Regional Hospital provide a safe and confidential relationship to discuss physical, emotional, and spiritual concerns. They serve as a liaison between patients and their religious communities.

Sensitive and confidential care is provided to patients of diverse cultural backgrounds and spiritual preferences. In addition to patients and family members, chaplains offer supportive care to hospital staff and team members.

CPE at Duke Regional Hospital

The Duke Regional program in Clinical Pastoral Education is provisionally accredited for Level I and Level II units, as well as CEC training with the Association for Clinical Pastoral Education.

About Us

Duke Regional Hospital has served Durham, Orange, Person, Granville, and Alamance counties and the surrounding communities for 45 years. Duke Regional Hospital has 388 inpatient beds and offers a comprehensive range of medical, surgical, and diagnostic services, including orthopedics, weight loss surgery, women's services, and heart and vascular services. We also offer care at the Duke Rehabilitation Institute, Duke Behavioral Health Center North Durham, the Health Services Center, Arrington Ambulatory Surgical Center, and the James E. Davis Ambulatory Surgical Center.
